WILLIAM BRADSHAW ARM CHAIR

William Bradshaw Arm Chair

The reeded back uprights have a sweeping strut just above the seat connecting them to the front, thus improving the strength of the chair enormously.

There is very little machining involved in making this chair: the vast majority is all handwork. It is understandable why this type is such a rarity today.

William Bradshaw Arm Chair Model: CH-KA. A side chair version is also available. To see this, please click on the link:
