HOUSE CABINET CB 134

House Cabinet CB 134

This is a wonderful accent piece, with an enormous attention to detail. Certainly a talking point!

The exterior is based on an English Georgian dressed stone house, complete with pilastres and decorative architectural moulding details.

The top opens to reveal shelves, ideal for a drinks cabinet, or storage for tableware in the dining room. Or for books in the office.

Immediately below is a pull-out slide, for serving drinks or even for use as a desk top.

Then we have deep drawers, very good storage for any number of uses. And a bonus: **a secret drawer!**

Wouldn't the House Cabinet make a magical storage for a child, for their toys or clothes. Their most precious things can be stowed safely in the secret drawer. Of course the House cabinet can also be used as a dolls house.

The House Cabinet is a very decorative and useful cabinet, suitable for a myriad of uses.

The Classic Chair Company

It is in 3 separate pieces, to make transport and installation trouble free.
