THE CLASSIC TV CABINET

The Classic TV Cabinet

Model: CB-CHTV

The Classic TV Cabinet is a marvellous solution to integrating modern technology within a traditional interior scheme.

The cabinet has all the hallmarks of Classic Chairs' premium quality, not only because of the solid hardwood used throughout, but also in the customary fine craftsmanship detailing and handwork.

In addition, it is available with or without doors. Without the doors, it becomes a great bookcase, with plenty of depth.

Where doors are required, the panels in the doors can be supplied in many variations.

For example, either in the polished finish as standard, or you may choose to have them glazed.

Yet another option is with brass "fishtail" grilles, as shown. These can be overlaid on fabric or decorative paper panels, or on glass.

The Classic Chair Company

The Classic TV Cabinet comes with a smooth and silent operating mechanism, designed to work via a remote control. (The TV and relevant remote control are not supplied with the cabinet.)

Dimensions (mm): w 1350 d 480 h 1000 (closed)

PRODUCT DESCRIPTION

The Classic TV Cabinet.

Model: CB-CHTV

The Classic TV Cabinet is a marvellous solution to integrating modern technology within a traditional interior scheme.
